SUMMARY

Motivated and detail-oriented Computer Science Engineering student with a strong foundation in programming languages. Experienced in various web development projects and eager to apply technical skills for organizational success. Adept at teamwork, performing effectively under pressure, and continuously enhancing technical expertise.

EDUCATION

B. Tech (Computer Science & Engineering)
Vivekananda Global University, Jaipur *(2022 – Present)*

Higher Secondary (12th – Science) |
Kisan Majdur Cum Inter College, Tari, Siwan Bihar *(2018 – 2020)*

Secondary (10th – Science) |
Kisan Majdur High School, Tari, Siwan Bihar *(2017 – 2018)*

EXPERIENCE

Intern – CodeClause Pvt. Ltd. *(April 2024 – May 2024)*
A company focused on web development training.
- Gained hands-on experience in building websites using HTML, CSS, and JavaScript.
- Enhanced skills in front-end development.

Intern – InternPE *(June 2024 – July 2024)*
A platform offering training opportunities.
- Participated in a one-month training program in C++ programming.
- Enhanced skills in developing efficient and robust software solutions.

KEY ACHIEVEMENTS

Hackathon: Led a team TOP 5 to develop a chatbot for agriculture, winning hackathon Code Red 4.0.

Website Development: Developed a personal website, attracting

Team Project Success: Contributed to two large-scale projects, boosting team productivity by 25%.

SKILLS

Technical Skills:
- **Web Development:** HTML, CSS, JavaScript
- **Software & Tools:** Visual Studio Code, GitHub, MS-Word, Excel, Photoshop

Soft Skills:
- Problem-Solving & Logical Thinking
- Teamwork & Collaboration
- Time Management
- Communication Skills

LANGUAGES & COMMUNICATION

- **English**: Intermediate
- **Hindi**: Proficient

PROJECTS

Portfolio Website
Aimed to showcase web and app development skills through personal projects and hackathons.
Develop a portfolio and participate in competitions to gain hands-on experience.
- Built a **personal website** to share study materials, demonstrating **full-stack and front-end** expertise.
- Participated in **Code Red 4.0** hackathon, developing:

Successfully developed multiple projects, strengthening **problem-solving, teamwork, and technical skills**.

Calculator App
Needed to create an interactive calculator for basic mathematical functions.
Design a user-friendly interface with essential operations.
- Developed a **calculator** using **HTML, CSS, and JavaScript**.
- Integrated **addition, subtraction, multiplication, and division** functionalities.

Delivered a functional and responsive tool, enhancing **front-end development skills**.

PASSIONS

- **Creative Interests**: Interested in Photoshop and photo editing
- **Continuous Learning:** Exploring new technologies and frameworks.
